

# AutoCAD Assignment 1: Site Plan

Assignment will follow the instructions in the EX1\_AC\_EN\_2020.pdf. Drawing drawn and printed according to the material is a mandatory graded component of the course. Each student returns their own files and printouts.

Assignment is graded separately according to grading criteria published on the course's MyCourses page.

Example of a finished assignment can be found on the next page (Figure 1).

## Return

The drawing drawn and printed according to the material is returned in the assignment.

Return two files (dwg and pdf), more detailed instructions in MyCourses. Name the files as follows: student\_number\_1.dwg and student\_number\_1.pdf (for example, 12345A\_1.dwg and 12345\_1.pdf)

## DEADLINE

**Assignment will be returned on the week 38 during your exercise session to the return folder in MyCourses.**

**Check that the mandatory criteria are met!**

**Have an assistant present approve your assignment if possible.**

## Task Criteria

Min/Max = 7/12

1. Required files have been returned of time	Required files have NOT been returned on time.  0 points	Obligatory! Required files have been returned on time.  1 point	
2. PDF layout resembles the figure given in initial data.	PDF layout does not resemble the figure given in initial data.  0 points	Obligatory! PDF layout resembles the figure given in initial data  1 point	
3. Given initial data has been used correctly.	Given initial data has not been used correctly.  0 points	Obligatory! Given initial data has been used correctly.  1 point	
4. Exercise has been drawn in scale 1:1.]	Exercise has not been drawn in scale 1:1.  0 points	Obligatory! Exercise has been drawn in scale 1:1.  1 point	
5. The division of layers is reasonable, and the names of layers are sensible.	The division of layers is not reasonable, or the names of layers are sensible.  0 points	Obligatory! The division of layers is reasonable, and the names of layers are sensible.  1 point	
6. Dimensions are correct and taken from the right places.	Dimensions are not correct or have not been taken from the right places.  0 points	Obligatory! Dimensions are correct and taken from the right places.  1 point	
7. Correct paper size A3 has been used in layout.	Correct paper size A3 has not been used in layout.  0 points	Obligatory! Correct paper size A3 has been used in layout.  1 point	
8. [Dimensions are represented consistently and widely, and they are easy to read	Dimensions are not represented consistently or widely, and they are easy to read.  0 points	Dimensions are represented consistently, but not widely or they aren't easy to read.  1 point	Dimensions are represented consistently, widely and they are easy to read.  2 points

9. Linetypes show correctly and they have been used reasonably.	Linetypes show incorrectly or they have not been used reasonably.  0 points	Linetypes show mostly correctly.  1 point	Linetypes show mostly correctly and they have been used reasonably.  2 points
10. Texts are made and printed correctly.	Texts are not made right or missing.  0 points	Texts are made right.  1 point
